ABOUT FUTUR

Founded in October of 2010, FUTUR Technology is an innovative manufacturer and supplier of high quality renewable & sustainable food packaging solutions, supplying a broad range of paperboard & bioplastic packaging products for the food industry globally.

OUR MISSION

Our mission is FOR A GREEN LIFE.

We do this by researching and developing renewable & sustainable food packaging solutions continuously; And by delivering high quality products into the global market through our global partners.

OUR VALUES

Customer First.
Open , Share.
Think Out of Box.
Focus , Perfect.
Get Result , No Excuse.

SUSTAINABILITY

New Materials -

We use renewable resources as materials like PLA (made from plant, not oil), bagasse, paperboard... etc.

New Technology -

To make a new product, it requires new technology new processes to make it happen. We are doing hard & the best to meet / exceed customer's expectations.

New Products & Applications -

Due to the global plastic bans and increasing consumer environmental awareness, the global packaging demand is changing from the conventional packaging to renewable & sustainable packaging all over the world. Through our people and our R&D, we are continuously bringing new packaging products & solutions to meet the customer's new applications every day.

SOUP TO GO

In line with the expanding Hot Food to Go market, we have an extensive range of packaging solutions.

From products suitable for freezing, microwaves and ovens, to those suitable for hot hold cabinets, or grease resistant for takeaways, festivals and food-to-go, we have a solution for your requirements. Check the attributes of each product or talk to one of our packaging specialists for suitability.

CHILLED FOOD TO GO

Chilled food to go options have expanded from simple salads on the go to complex meal solutions with high-end proteins and vegan options to respond to changing consumer demands.

Our chilled food range has kept pace with this, offering maximum content visibility via over the edge windows and a wealth of alternatives in shape and size for any requirement.

As well as easy to use closure options, sizes and shapes, we have fully laminated deli boxes that are suitable for breakfast and lunch options. Heat seal and modified atmosphere packaging options that can lengthen the shelf life of contents complete this diverse range.

Key Attributes

- Range of materials from recyclable to compostable
- Variety of sizes and styles to suit your chilled food to go requirements
- Lots of closure options push tuck lids, heat seal and separate bases and lids
- Options to add custom print to highlight branding

Material Options

- Kraft Paperboard
- White Paperboard
- Bamboo Paperboard

All paperboard are FSC certified.
